

NIGERIA LIMITED?

I HAD a trip round Port Harcourt main town yesterday I was perplexed to see many institutions and organisations still bearing the word "Nigeria Ltd." in their respective names.

I think that this is the work of the people — Biafrans — not the government which is bent on

the work of building up the new nation. So fellow Biafrans the earlier we changed this name in the country the better. So let us see that every company, institution etc owned by Biafrans no longer bear the name Nigeria.

It reminds me and many others of the great pain of the death of our brothers and sisters during the 1966 pogrom organised by Lt. Col. Jack Gowon & Co. when ever we see the word "Nigeria."
