

APPEAL TO PH LANDLORDS

By Job N. Ugbaja

Port Harcourt

MUCH has been contributed towards both winning the war and preserving the comfort of the individual so we can prosecute this war of loot and genocide imposed on us by Gowon and his criminal collaborators.

Much has also been contributed by individuals and groups of individuals to strengthen the fighting forces of our young Republic to beat the enemy hollow.

It is praiseworthy to our people who in their own way have courageously and consistently contributed towards the successful prosecution of this war.

But I wish to appeal to Port Harcourt landlords in general — especially those places that have not resolved on rentage—to look into this crucial question of rentage at this time. I hope it will go a long

way to relieving much burden on tenants.

The Aba and Owerri Landlords' Associations have taken the initiative to demonstrate their additional contribution towards helping the workers of the arrears of their jurisdiction as long as the war lasts.

These voluntary contributions go a long way in reminding our courageous Head of State—Lt. Col. Odumegwu Ojukwu and his able lieutenants that our people understand why we are fighting and will not relent our efforts until victory is won by Biafra.
