

INTERNAL VIGILANCE

VERY often, we tend to forget that we are fighting a war of survival. We seem to forget that we Biafrans are fighting Nigerians because they want to exterminate our race and inhabit our country. This hideous act, we are fighting to prevent.

And to do so, we must be internally vigilant for there are some misguided lot among us. Those people should be watched and corrected. They are not far from us, they are our next door neighbours. They must be watched critically at home and at work.

The other day, during house to house combing, I asked the occupant of one of the rooms in a cer-

tain plot the name of his neighbour and he told me that he did not know, but they had lived together for the past two years.

This should not be the character of a true Biafran if we must survive as a nation. We should know and watch our neighbours if our experience at Enugu is not to be repeated in Port Harcourt.
