

ADVICE TO GOWON

FROM PRINCE L. AKUMS

Port Harcourt.

IN 1966, you and your collaborators planned Pogrom and Massacred 30,000 progressive Biafrans in the defunct Nigeria. You were not satisfied with this; and now out of sheer madness you wage a War of aggression against us to snatch away the wealth nature has bestowed on us.

This has never happened in the history of mankind. We therefore resist and are fighting a war of survival.

You have unavoidably lost your first hope on Biafra and have now adopted the habit of forcing inno-

cent Nigerian boys to fight this war of aggression for you. Haven't you known or been told that these boys have been meeting their doom in thousands?

Oga Bunker, having realised that Biafra is a hundred times stronger than what you imagined of her, why can't you give up? Sometimes, it may be that you are bold in doing this because you are too proud.

You can humanly accept the SHAME, and stop this suicidal attempt; otherwise Biafra will welcome your challenge in all quarters. British aids notwithstanding.
