

THANKS FOR THE BUSES BUT...

A. A. Anyaegbuna

Port Harcourt

THE citizens of Port Harcourt owe incalculable debt of gratitude to Municipal Council for providing about four buses to run transport services for the comfort of the public.

This metropolitan city of Port Harcourt with its growing population which is estimated to be about 150,000 needs many modern buses to ply on the streets to facilitate transport business which is rapidly increasing day by day.

Therefore I congratulate the Municipal Council for taking such a wise step.

It is exhilarating and a luxury to ride on buses, but the snag in it is that the transport fare of buses plying in Port Harcourt township is too exorbitant.

I am cognisant of the fact that the cost of petrol had been increased to 8/- a gallon coupled with committant effects of the war.

On behalf of the public of Port Harcourt, I am appealing to the Authorities of

Port Harcourt Town Council to show a spirit of magnanimity to the bus passengers, by reducing the bus fare from 6d to 3d per passenger.

I am also directing my appeal to other private buses to reduce their fares to 3d.

I suggest the following fares:-

From Gborokiri to New Market and vice versa 3d, New Market to P.H. Motor Station 3d Gborokiri to P.H. Motor Station 6d Dioba to P.H. New Market 6d.

I await a press statement from Port Harcourt Town Clerk on this issue.

I am also appealing to Port Harcourt Leaders of Thought and Labour to probe into issue of reducing the buses fares in the township.
