

PEOPLE'S LEADER

Being an open letter to the Head of State,
Col. Ojukwu from

Clem C. Chukereze

Port Harcourt

MY Beloved Leader,

I must not fail to express my happiness over your capability in piloting the ship of the nation in this war of survival. Moreover, on the question of sabotage. Well done Head. I must confess I am proud of you.

Your Excellency, I will be proud to see this nation remain a strong and united nation after this present war. Therefore, to ensure this once and for all I suggest your Excellency send all saboteurs to their graves.

Even if there are 4 million subversive Biafrans in our midst, please send them to hell. No matter who is involved. It is said, "Honour and Shame, from no condition rise". Other 10 million true Biafrans can still go strong.

After all Israel is now one of the world powers with only 3 million people. So shall Biafra be D.V. As for that Tiv-born idiot, monster Yakubu Wagon, he is only trying to eliminate his subjects which he will be

unable to feed and control after his futile war of aggression by sending them to die in the Biafran Waters and Lands. If not so, why can't he come down himself at least to drink his cup of tea at Hotel Presidential Enugu?

So, your Excellency, rest assured you are the People's Leader. For right now I vote for you to be in the rank of Army GENERAL or the highest rank in the army if any. One with God is a majority. More grease to your elbows.
