

THANK YOU, GOWON

Miss Caroline U. Nwafor

Port Harcourt

PLEASE allow me a space in your popular Daily-Flash to express my deep feelings.

I thank Gowon and his illegal Government for introducing a new currency system for his country. This is the most cunning method ever applied for recognising us as a separate and Independent State since our new nation was born.

Recognition is Recognition, whether

directly or indirectly.

If Gowon was fighting to keep Nigeria one he would sought Biafra's opinion first before designing a new currency system.

Lagos Government argued that the introduction of a new currency system was because of Biafra's meddlesomeness in their private affairs.

I repeat, thank to the Lagos junta for keeping the flag flying by taking such a bold step forward.

Long live Biafra.
