

LET'S HAVE FRANCS

Ifediora Nzimiro

Port Harcourt

DCWN in the past when we were in the Federation of Nigeria, there was a sort of name given to our coins and currencies. They are shillings, pennies and pounds.

Gowon and his criminal collaborators have urged their Central Bank to change Nigerian currency in order to put a stop to our foreign trade. This in the real sense of it has not removed a hair from us. We heard of it and devised a means to combat it.

We Biafrans must know that as we are to build our nation, everything in our administration will also change. We should not follow the Nigerian method of naming money. America has dollars, Bri-

tain the Nigerian master sider has pounds as Nigeria.

So I suggest that as far as we are no more with Nigeria, we should build our Nation in a separate way far from that of Nigeria. This we should do by changing our own money to "Francs" instead of pounds.

As we have eluded Nigerian vandalism into the promised land, let us change everything of ours into an atmosphere suitable to our environment.

Long live the Republic of Biafra.
