

NO ONE SHOULD FEEL UNCONCERNED ABOUT COMBING

Mayen Wai-Ogosu

ABA

IN this our young Republic of Biafra some people still seem not to understand how to fight our enemy to a finish. It is really pity to see some of our young men going about quite unconcerned on combing days.

Some people are thinking that it is only when they carry guns to the war front that they will

knew actually that they are helping the nation to vanquish the enemy.

As a matter of fact, our young women such as myself should start following our young men to combing if they feel we are cheating them. Let the women be doing house combing while the men do bush combing.
