

THE TACITURN WORLD

WHY is the world so drowsy and non-challant about the present Biafra-Nigeria war? No one can up till now pretend to be ignorant of Biafra's case. Am I to believe that the world conscience is so hypnotised by Gowon's empty rantings that no one country has got the guts to puncture Gowon's bluff.

One cannot fail to feel bamboozled over this endless taciturnity. Or has Biafra not shown enough proof of her determination to defend her territorial integrity. What other proof does the sleepy world want?

The toothless bulldog, that is Britain and all her discredited organs of information must stop at nothing to seeing that Biafra is brought back to the defunct Nigeria.

Britain has sup-

plied Gowon with all the lethal weapons at her disposal. That is why Gowon has been pounding his fist issuing threats and prophecies, on which to end his war of aggression.

Gowon's threats is but a hoax calculated to deceive fellow travellers. His empty threats should be regarded as tantrums of the fool-hardy. As he continues playing for time, Biafra is poised for final assault.
